

This is a list of (important) known errors in the notes, not corrected in the hand-outs, but corrected in the online version.

1. page 8: replaced $n = 1 - b/a$ with $n = 10(1 - b/a)$
2. page 52: winding problem, replace Period $P \propto 1/R$ with Period $P \propto R$.

Think you found an error? Let me know, tom.theuns@durham.ac.uk
